COMPANY NAME: SHOPEE

BUSINESS PROCESS: ORDER FULFILLMENT

BUSINESS PROCESS MANAGEMENT (BPM)

- Is the systematic approach of analyzing, designing, implementing, monitoring, and continuously improving business processes to increase efficiency and achieve organizational goals. In the case of Shopee, BPM helps streamline the order fulfillment process, reduce delays and errors, and ensure that customers receive their orders accurately and on time while improving the overall quality of service.

BPM Goals and Scope (Shopee Order Fulfillment)

GOALS

- Deliver customer orders quickly and accurately.
- Reduce order processing errors.
- Improve customer satisfaction.
- Make warehouse and delivery operations more efficient.

SCOPE

The order fulfillment process starts when a customer places an order on Shopee and ends when the customer receives the package. It includes:

- Order placement
- Payment confirmation
- Seller prepares the item
- Warehouse sorting (if applicable)
- Courier pickup
- Delivery to the customer
- Order completion and customer feedback

BPM Lifecycle in Shopee Order Fulfillment

- 1. Design:** Plan the order fulfillment process from checkout to delivery.
- 2. Model:** Create a workflow showing how orders move from the customer to the seller, warehouse, courier, and finally to the customer.
- 3. Implement:** Use Shopee's system to process orders, confirm payments, update inventory, and coordinate with delivery partners.
- 4. Monitor:** Track delivery time, order accuracy, shipping status, and customer complaints.
- 5. Optimize:** Improve delivery speed, reduce delays, automate updates, and enhance the customer experience based on collected data.
